*'The day after my 35th birthday, I had a near death experience, caused by a sudden brain haemorrhage. Ironically, this brush with death became the conduit for the most powerful healing in my life. I connected to an eternal light which, I came to realise, is available to us all should we choose it. My wish for you in reading this book is to feel this loving light, peace and joy in your life now. The question is: how brightly do you wish to shine?'*  
Róisín Fitzpatrick

**'A remarkable book that is unique in the annals of its kind . . . a love story in the most sublime sense'** Dr. Bruce Greyson, co-editor of *The Handbook of Near Death Experiences*, and world renowned medical expert in NDE research for over 40 years.
